- Faster transaction time – quicker customer service
- CVV2 & CVC2 – helps prevent fraud

PAYMENT PROCESSING

Restaurant & Retail @dvantage® for SoftPay®

FEATURE-RICH TERMINAL ADAPTS TO YOUR NEEDS OF TODAY – AND TOMORROW

Today's restaurateurs and retailers operate in a fiercely competitive environment, juggling many priorities to ensure ongoing success. Global Payments understands. That's why we have expanded our wide variety of POS solutions to include the Restaurant & Retail @dvantage for SoftPay, operating on the VeriFone Vx510 terminal.

The Vx510 is a compact, countertop POS terminal, providing secure and efficient credit and debit transaction processing. The optional GPRS model is perfect for flexible locations, as only wireless service and a power source are required. The Vx510 GPRS also boasts gift card and contactless payment acceptance capabilities.

Designed specifically for your business needs, the Vx510 solution is the right one for you and your customers.

Operating on the VeriFone® Vx510 Terminal

FEATURES	BENEFITS
Credit and debit chip card acceptance	Provides state-of-the-art security features, safeguards transactions and reduces exposure to fraud and potential chargebacks
Secure wireless GPRS option available	GPRS broadband connectivity helps you serve your customers faster, while eliminating the problem of using the same phone line for both transactions and business
Supports contactless payments (GPRS model only)	Simpler and faster than cash, helping speed customers through the checkout process
New receipt layout, with larger font, plus intuitive ATM-style interface, with white backlit display, and bold menu prompts	Facilitates ease of use and greater screen and receipt legibility
Gift card acceptance capabilities (GPRS model only)	Help drive new customers and additional revenue to your business
Alternate transaction flow	Faster processing
